MUHAMMAD ANUS

Full Stack Developer • MERN Stack Specialist • React Native Engineer

Orangi Town, Karachi, Pakistan | 03130106054 | anusbilal17@gmail.com | github.com/Anusbilal | linkedin.com/in/anus-bilal

PROFESSIONAL SUMMARY

Full Stack and Mobile Developer with 3+ years of experience building production-grade web and mobile applications using the MERN stack, Next.js, and React Native. Skilled in designing scalable APIs, integrating Firebase and third-party services, and delivering clean, high-performance user interfaces. Proven ability to ship 10+ web apps and 4+ cross-platform mobile apps in agile, client-facing environments.

WORK EXPERIENCE

Full Stack Developer | Wide Dimension — Jan 2023 - Aug 2026

- Built and maintained full-stack applications using React, Next.js, Node.js, Express.js, and TypeScript, developing scalable web solutions for multiple clients.
- Designed and integrated RESTful and GraphQL APIs with JWT authentication, role-based access control, Firebase, and third-party services.

React Native Developer | Wide Dimension — Jan 2023 – Present

- Developed and maintained cross-platform iOS and Android applications using React Native, integrating Firebase, APIs, payments, maps, and device capabilities.
- Implemented complex navigation, push notifications, real-time synchronization, and performance optimizations for production applications.

Junior Web Developer | Wide Dimension — 2022 – Jan 2023

- Developed responsive web interfaces using HTML, CSS, React, and JavaScript, based on Figma designs.
- Integrated REST APIs and collaborated with senior developers to deliver client-facing web applications.

PROJECTS

SafePhone — Mobile Device Management Platform — safephone.netlify.app

- Streamlined secure access by implementing role-based authentication and workflows for Owners, Distributors, Retailers, and Customers.
- Enhanced device security through IMEI management, tracking, FRP management, notifications, and remote controls.
- Centralized business management through subscriptions, customers, reporting, and distributor operations.

Wide ERP — ERP & Shopify Management Platform — wide-erp.netlify.app

- Centralized sales and inventory operations by integrating Shopify GraphQL for product synchronization, order management, fulfillment, and sales analytics.
- Improved inventory accuracy through stock adjustments, quantity tracking, stock zones, and automated Shopify product synchronization.
- Streamlined business operations with modules for orders, payments, vendors, billing, employees, couriers, and role-based access control.

NEEDNET — Real-Time Delivery Management Platform — neednet-4b9b4.web.app

- Streamlined delivery operations by connecting restaurants and riders through real-time task synchronization.
- Improved delivery tracking by enabling riders to manage assigned tasks, update statuses, navigate pickup/drop-off locations, and submit delivery proof.
- Enabled secure platform access through Firebase authentication and separate restaurant/rider workflows.

ProdSnap — Product Showcase Web App — prod-snap.netlify.app

- Created a clean, responsive interface for showcasing e-commerce products with modern UI design.

EDUCATION

BS Software Engineering — University of Karachi (UBIT) — 2023 – 2026

TECHNICAL SKILLS

Frontend: HTML5, CSS3, JavaScript (ES2022+), TypeScript, React.js, Next.js, Tailwind CSS, Material UI

Mobile: React Native (CLI & Expo), React Navigation, Reanimated, Hermes Engine, Fastlane

Backend: Node.js, Express.js, REST APIs, GraphQL, JWT Authentication, WebSockets

Databases: MongoDB, MySQL, Firestore, SQLite, Prisma ORM

State Mgmt: Redux Toolkit, Zustand, React Query (TanStack Query)

Cloud & DevOps: Firebase (Auth, Firestore, Functions, Storage, FCM), Git, GitHub Actions, Vercel, CI/CD

Tools & Design: Figma, Postman, VS Code, Android Studio, Xcode Simulator
